

Winds of fate

Here we are together
After oh so many years
After all the ups and downs
the laughter and the tears
It's very nice to be with you, I've never let you go
Your memory... has sure been sweet
And now you're back I know

**One never knows, one never knows
How the winds of fate will blow
One never knows, one never knows
We just need to hit the wind
And keep our heads down low**

One we had it so good
But things went bad overnight
And we headed on out our separate ways
Hopin' next time it'd be right
Lots of old life there under that bridge
Some good, some glad to leave
But honey no-one could ever replace you
You've brought me a reprieve
